Illinois Institute of Technology

October 29, 2007

Dear Sir,

Scientific Control Laboratories has an opening for a part time (~20 hours per week) metallurgical technician. This would be a good opportunity for a student to obtain hands on experience in physical testing, failure analysis, and corrosion testing.

Duties would include, but are not limited to:

- Metallurgical Mounting, Polishing, and Etching
- Optical Microscopy (Mainly electroplating defect investigations)
- Corrosion Testing (salt spray, CASS, humidity)
- Technical Writing (Test Reports)
- Some Customer Contact to schedule tests and relay results

We are located near 31st Street, between Cicero and Pulaski. If interested, please direct inquiries to Kevin Wasag, Laboratory Manager (773-254-2406 x19).

Cover letters / resumes can be sent to kwasag@sclweb.com.

Thank-You,

Kevin Wasag P.E., Metallurgist
Laboratory Manager
